INSTRUCTIONS

## **Important Ergonomic Information: Repetitive Motion**

Some people may experience fatigue or discomfort after playing for a long time. If your hands and arms become tired or uncomfortable during gameplay, stop playing immediately and rest.

If you continue to experience soreness or discomfort during or after play, stop playing and consult your physician.

If your hands, wrists or arms have been injured or strained in other activities, use of your system could aggravate the condition. As necessary, consult your physician before playing video games.

## **Warning! Photosensitivity And Seizures**

Video games may cause a small percentage of individuals to experience epileptic seizures or have momentary loss of consciousness when viewing certain kinds of flashing lights or patterns on a television screen. Certain conditions may induce epileptic symptoms even in persons who have no history or seizures or epilepsy.

If you or anyone in your family has an epileptic condition, consult your physician prior to game play.

It is recommended that parents observe their children when their children play video games. If you or your child experiences any of the following symptoms: dizziness, altered vision, eye or muscle twitching, involuntary movements, loss of awareness, disorientation, or convulsions, discontinue use immediately and consult your physician.

To reduce the likelihood of a seizure while playing video games:

Sit at least two feet from the screen in a well-lit room.

Reduce the brightness of the screen.

Do not play video games if you are tired.

Take frequent breaks from the games and look away from the screen every once in a while.

Turn the game off if strange or unusual feelings or body jerks develop.

## Using IntelliCard™ Collectible Game Cards

Please follow these instructions carefully.

- Hold your card by the edges with the HyperScan™ logo facing up and the character illustration face down.
- When prompted (onscreen) position the rounded section of the card so the target area hovers directly over the sensor in the CENTER of the glowing red panel (as indicated). Your card should be approximately 1/4 inch from the sensor.
- A sound will confirm a successful scan and your character will appear onscreen momentarily.

- Repeat the process to scan your modification cards.

During gameplay you may scan modification (MOD) cards to enhance and customize your character's fighting skills.

If you scan an incorrect card you will hear a sound indicating that the card you scanned is not suitable for use at that particular time.

### **Caring For IntelliCard™ Game Cards**

Although the patented technology embedded in our IntelliCard™ Game Cards is quite durable, please do not mishandle or mistreat your cards, as abuse will adversely effect their performance.

### **Handling Your HyperScan™ Format Disc**

This disc is intended for use with HyperScan™ consoles only.

Do not bend it, crush it, or submerge in liquids.

Do not leave it in direct sunlight or exposed to other sources of heat.

Keep the game disc clean. Always hold the disc by the edges and keep it in a protective sleeve when not in use.

Clean your disc with a lintfree, soft, dry cloth, wiping in straight lines from the center to the outer edge. Never use solvents or abrasive cleaners on the disc.

### **Loading Your HyperScan™ Game Disc**

Open the console's CD compartment and place the game disc, printed side up, into the compartment on the center hub. **DO NOT TOUCH THE LENS!** You may then close the compartment cover.

### **Screen Saver**

During periods of inactivity a HyperScan™ screen saver will be set in motion. Press any button to return to the main menu.

### **Scanning Cards Before/After An Adventure:**

When players enter the game, they will be prompted to first scan a character card. Then, the players will be prompted to scan their MOD cards. Different MOD cards will produce various effects. The player(s) then begin their adventure. When the adventure is completed, the player(s) will be prompted to re-scan their character card(s) to upgrade them.

**NOTE:** After winning a STORY game, the player will earn experience points for future battles by scanning that Hero's Character card. STORY cards cannot store the upgraded data.

## Story

Enter the Marvel™ Universe! A Universe that parallels our own except that, in addition to mortal beings, it is populated by Super Heroes, Super Villains, Mutants and Gods who wage a constant war to determine our ultimate fate!

Some are outlaws. Some are saviors. All are legends. Now it's your turn to take control and lead the battle. Will the forces of good or evil triumph in the Marvel™ Universe? It's up to you.

## Game Play

Choose your Hero, choose your opponents and its "cataclysm" on! Players will face evil attacks from thugs, villains and bosses as they work their way through a wide variety of customizable areas and atmosphere conditions. Make your choices wisely—they can have a positive or negative effect on your Hero's battle performance!

**Portal:** At the end of each game level player(s) will find a Portal. Enter the Portal with your Hero and you will be transported to the next level. If your Hero is not transported to the next level,

you have not conquered all of your opponents and will have to go back, find them and defeat them.

Using the joystick, scroll up or down the list of options then press the "START" button to activate your selection.

**1-P Start:** Follow the on-screen prompts to scan your Hero card. You can then battle using the boss, villains, area and atmospheres pre-selected by the game or follow the on-screen prompts to modify your game by selecting the large square (AREA), small square (ATMOSPHERE) or icons (VILLAINS, BOSS) and scanning additional MOD cards. When you are finished scanning, press the START button to begin.

**Story Card:** From 1-P Start mode, scan a single Story card and be instantly swept away on a battle adventure full of twists, turns and special surprises. Single player only.

**2-P Start:** Allows 2 players to each choose their own Heroes. They can then scan additional MODS to choose the thugs, villains and boss they will team up to battle. It is possible, for example, to have 2 Spider-Man Heroes teaming up in the same game, but each player must scan his or her own Character card.

**Options:** Use the Options menu to enable 2nd Player Damage or view the game credits.

**NOTE:** Enabling 2nd Player Damage creates a more challenging game because Heroes can inflict damage on each other as well as be damaged by their opponents.
